WIRELESS INTERNET DISCLOSURE

- Installation charges & wireless router charges will be collected at the time of installation in the form of a money order and/or personal check accompanied by valid a I.D. **Cash will not** be accepted.
- Installation of wireless internet service includes subscriber module, an internal or external modem, a power supply and a weatherized category 5E cable run to the customer's equipment room. Cable length not to exceed 75ft. from subscriber module.
- Additional work outside of what is defined above will be billed at \$75 per hour with a 2 hour minimum. If additional equipment is requested and/or needed, additional charges will apply. Additional cable drops can be provided and will be billed at \$100 per drop.
- Additional drop footage requests will require a quote prior to install.
- One IP address is provided with all VTX1 Wireless Internet Service Packages. In most cases, one IP address will be sufficient, and virtually unlimited IP addresses may be created using a private customer network addressing scheme.
- All speeds are provided best-effort (up to listed speed), and are not a contractual guarantee of the specified speed. Congestion can cause a slow-down and all efforts will be made to improve spectrum/wireless AP load to within 80% of advertised speed.
- Customer must have an active e-mail address to receive monthly billing statements. If the customer does not have an active e-mail address, the customer may use free e-mail services through gmail.com, yahoo.com or another e-mail provider.
- See the VTX1 Terms and Conditions at [www.vtx1.net](http://www.vtx1.net) for additional information.
